

The image features a dark, textured background with a repeating diamond pattern. In the upper left, the Ardeca Industries logo is displayed, consisting of a yellow stylized leaf-like icon followed by the word "ardeca" in white lowercase letters with a registered trademark symbol, and "industries" in yellow lowercase letters below it. The central part of the image shows a close-up of a person's hands. One hand, wearing a blue work glove, holds a black metal bearing. The other hand, without a glove, has a finger coated with a thick, yellow, gel-like substance, which is being applied to the inner surface of the bearing. The lighting is dramatic, highlighting the textures of the metal, the glove, and the lubricant.

# Lubricants

## Assembly lubricants

**-180 °C à +1400 °C**

Wide range of high-quality lubricants for exceptional performance in temperatures from -180°C to +1400°C.

**Composition:** high-quality lubricants based on copper, aluminum, graphite, molybdenum disulfide (MoS<sub>2</sub>), ceramic, and stainless steel.

**Application:** suitable for various industries, including nuclear, food, pharmaceuticals, and processes involving oxygen contact.

## Special lubricants

High-quality lubricants and maintenance products for various industrial applications

**Composition:** includes oils, greases, and sprays, including specialized silicone lubricants (O-ring, plastic lubrication)

**Application:** lubrication for high temperatures and aggressive environments, products optimized for heavy loads and oxygen-rich environments. Advanced solutions for cable and chain lubrication, as well as adhesive lubricants for open gears and guides.

## Perfluorinated lubricants

Lubricants designed for lifetime lubrication and optimal performance under extreme conditions.

**Composition:** chemically inert lubricants optimized for temperatures up to 400°C and demanding environments.

**Application:** Suitable for applications where other lubricants are insufficient.

## Automatic lubrication and development of lubrication plans (ILS)

Advanced automatic lubrication systems (top brands such as Perma and Simalube) and Integrated Lubrication Services (ILS), where we develop customized lubrication plans (including LIS codes).

Systems are equipped with visual reservoir checks, adaptability to environmental conditions, and comply with the IP65 standard for dust and splash water resistance.

**Application:** suitable for lubrication at hard-to-reach places at set times after thorough analysis and creation of a lubrication plan.

## Standard lubricants

High-quality standard lubricants from all top brands, suitable for all your industrial applications.

**Application:** Including oil for gearboxes, motor oils, hydraulic applications, etc.

## Foodgrade lubricants

NSF H1-certified lubricants and cleaners from top brands.

**Application:** Food industry where incidental contact with food is possible, high-quality protection against wear, high safety and health standards.

## Biodegradable lubricants

Biodegradable oils based on hydrocracking and fully synthetic oils based on saturated esters. Suitable for lifetime filling without the need for oil changes, reduced maintenance costs, and lowered CO2 emissions.

**Application:** Suitable for all hydraulic installations and machines where biodegradable lubricants are indicated. Meets the highest quality standards.

# Lubricant material

## Lubricant material

Extensive collection of top-quality lubricant material for manual, pneumatic, electronic, and ultrasonic lubrication systems.

Our range includes durable grease nipples from UMETA in high-quality stainless steel (RVS-INOX) and robust brass, perfect for applications where corrosion resistance is crucial. Additionally, a wide selection of lubrication systems and accessories from leading brands such as SAMOA, PUISI, ALEMITE, ORION, UMETA, OILSAFE, etc., each with their own unique features and benefits.

**Application:** various industrial applications.

# Aérosols

## Technical aerosols

Versatile range of technical aerosols. Includes, among others, rust removers, penetrating oil, electronic sprays (protection for electronic components), silicone spray for a water-repellent layer, leak detectors, zinc spray, tracer paint (crack detection), etc.

**Application:** Maintenance, repair in production processes ranging from loosening rusted parts, corrosion prevention, protecting electronics, detecting gas or air pressure leaks, preventing wear, restoring galvanic coatings, to identifying microcracks.

## Fluids for metalworking

Both full and water-soluble cutting oils.

**Application:** Suitable for various applications and different materials such as aluminum, stainless steel (Rocol RTD), steel, cast iron, and more.

# Cleaning

## Cleaning products and degreasers

Specialized cleaning products and degreasers including Ardeca Industries LB001 SUPERCLEAN VB02® and Ardeca Industries Magic Foam Activ®.

Ardeca Industries LB001 SUPERCLEAN VB02 is a versatile quick cleaner in a convenient 500ml aerosol. Ardeca Industries Magic Foam Activ is a powerful foam cleaner packaged in a 500ml spray can. Additionally, the range includes many renowned brands such as ZEP, JELT, CRC®, etc.

**Application:** Quickly removes oil, grease, and other stubborn dirt, fast drying without residue. Suitable for both home use and professional settings. Ideal for industrial equipment, electronics maintenance, and general cleaning needs. Perfect for thoroughly cleaning various surfaces.

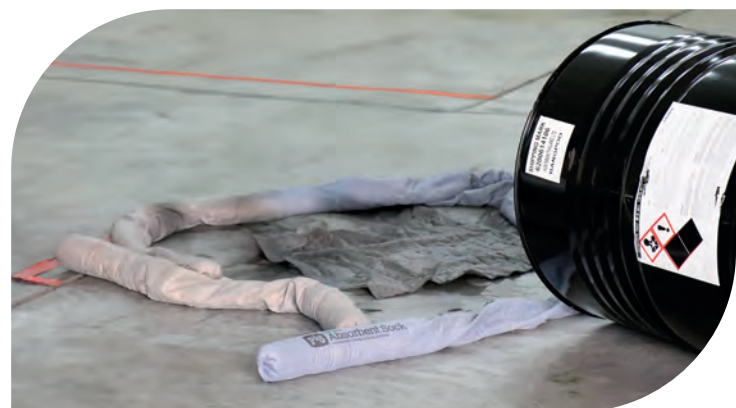

## Material for cleanup

Cleanup material for addressing leaks and spill incidents in various work environments.

**Composition:** Our Pig Spill Kits are specially designed for quick and efficient cleanup operations. Additionally, we offer Absodan absorbent granules, ideal for absorbing oil, chemicals, and other liquids. We also provide high-quality absorbent mats.

**Application:** Maintaining a safe workplace by quickly and effectively absorbing all kinds of liquids such as oil, water, coolants, and chemicals.

# Our brands

ARDECA®

Quality lubricants and oils for the automotive and industrial sectors

NEVER-SEIZED®

High-quality anti-seize lubricants for extreme conditions

DEN BRAVEN®

High-quality sealants and adhesives for construction and industry

VARYBOND®

Specialized adhesives and sealants for industrial applications

FUCHS®

Global supplier of lubricants for various industries

MOLYDUVAL®

Innovative industrial lubricants and oils

CRC®

Maintenance chemicals for industrial applications

MATRIX LUBRICANTS®

Biodegradable lubricants for the food industry and automotive sector

ARDROX®

Chemicals for the aerospace industry

UMETA®

Specialist in grease fittings and lubrication systems

OKS®

Lubricants and technical sprays for industrial applications

WD40®

Versatile maintenance product for lubrication and protection

JELT®

Cleaning and maintenance products for electronics and mechanics

SAMOA®

Robust and reliable lubrication systems

PERMA®

Innovative automatic lubrication systems

CARBAFLO®

Perfluoropolyether (PFPE) lubricants for extreme conditions

PANOLIN®

Eco-friendly lubricants and oils

ROCOL®

Industrial lubricants, also suitable for the food industry

MOLYDAL®

Lubricants and industrial maintenance products

SIMALUBE®

Innovative automatic lubrication systems

MOBIL®

Lubricants and oils for the automotive and industrial sectors

MOLYKOTE®

Specialized lubricants for demanding applications

CASTROL®

High-quality motor oils and lubricants

TRI FLOW®

Lubricants for precision and fluidity

SUPERLUBE®

Multi-functional lubricants for various applications

HORIZON LUBRICANTS®

Quality lubricants for diverse industries

ZEP®

Professional cleaning products for various industries

NEVER-SEEZ®

Anti-seize lubricants for extreme conditions

*40 years of expertise in  
the industry makes  
Ardeca Industries your  
reliable partner*

”

**ardeca**<sup>®</sup>  
industries

With 40 years of expertise in the industry, Ardeca Industries is known as a reliable partner in providing specialized solutions for lubrication, silicone products, industrial adhesives, and degreasers/cleaners.

Our unique market position and independent collaboration with renowned manufacturers enable us to offer custom solutions that are efficient, sustainable, and environmentally friendly, precisely tailored to your specific needs and challenges.
