

The image features a dark, textured background with a diamond-shaped pattern. In the upper left, the Ardeca Industries logo is displayed, consisting of a yellow stylized leaf-like shape followed by the word "ardeca" in white and "industries" in yellow below it. The background also shows a close-up of a rusty metal pipe being treated with a spray can. A hand wearing a yellow and black work glove is holding the spray can, which has "AMBER" and "PRODUIT" visible on its label. The spray is directed at the rusted metal. The overall scene is industrial and focuses on surface treatment.

Our solutions

Product protection

All kinds of coating products to protect your materials, ranging from zinc sprays and cold galvanizing solutions to protective coatings and Volatile Corrosion Inhibitors (VCI).

Range: Zinc sprays and cold galvanizing (ZINGA) for cathodic corrosion protection up to 650°C through paint application. CROCELL products for a peelable, flexible, waterproof film. VCI solutions (ZERUST) to prevent oxidation and rust.

Applications: Temporary protection against construction damage (materials on site), protection of components during storage and transport, industrial processes and metalworking (anti-corrosion), electronic components, and metal assets in demanding (marine) environments.

Material for safety equipment and marking

Innovative safety-enhancing solutions, including a variety of marking sprays and anti-slip products.

Range: Marking sprays for the construction sector, such as SOPPEC S-MARK for temporary markings and SOPPEC FLUO TP for durable lines. For long-lasting and wear-resistant markings, we offer epoxy-based products from ROCOL EASYLINE. Additionally, we provide anti-slip products such as ROCOL SAFE STEP.

Applications: Marking needs in the construction sector (SOPPEC). Durable markings at construction sites and industrial premises. Anti-slip coating for safe and hygienic work floors in the food industry.

Industrial paints

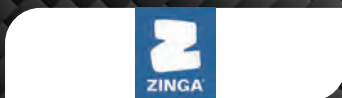

A wide range of industrial paint products from renowned brands such as Belton, Motip, Racing, and Vibol.

Range: Paints in all RAL colors, high-temperature paints, fluorescent paints, etc. Both single and two-component systems (compliant with military, maritime, and aerospace industry standards). High-quality spray paints for various surfaces (metal, wood, plastic, glass, etc.).

Our brands

ZINGA®

Cold galvanizing systems for metal protection

ZERUST®

Corrosion protection solutions for metals

MOTIP®

Aerosols for automotive paint, maintenance, and care

BELTON®

High-quality spray paints for professional use

SOPPEC®

Marking paints and sprays for construction and industry

EASY-LINE®

Professional line marking systems for permanent markings
